Dear Resident,

The Township of Pine contracts with Vogel Disposal Service to provide an automated collection of solid waste, recycling, and yard waste. Solid waste carts and recycling carts vary in size. The rate you pay will differ according to the size of your **solid waste** cart. Guidelines for the cart selection, along with pricing information, are provided on the back of this letter.

All carts are numbered and the property of the Township of Pine. Residents are expected to properly care for the carts and notify Vogel when repairs are needed. Carts remain at their assigned location except when exchanged for a different size. When moving, the carts are to remain at the residence.

- If you are moving into a newly constructed home, please select the size and number of carts you will need, then contact Vogel Disposal Service, Inc., to set up service. **Carts will be delivered to residents of new construction free of charge.**
- If you are a new resident of a home that was previously occupied, you may exchange a cart for a different size or request additional carts according to your needs. **A \$10.00 delivery charge will appear on your next billing statement.**
- Tags are required for extra bags (\$1.00), bulky items (\$5.00), appliances (\$10.00), and volume pick-up (\$15.00). They may be purchased through Vogel Disposal and will be mailed directly to your home or are available for pick-up at the Township Municipal Building, Monday through Friday 8:00 AM – 4:30 PM.

You may contact Vogel Disposal Service, Inc. directly to order or exchange carts, set up service, or to arrange repairs for carts at 724-625-1511.
